

# Proceedings of the Indian Academy of Sciences

Vol. 89, January-December 1980

## CONTENTS (Earth and Planetary Sciences)

Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex	<i>Rajendra P Sharma</i>	1
A study of the serpentinisation in the Vempalle dolomitic limestones near Pulivendala, Cuddapah District	<i>A N Vyasa Rao and M S Murty</i>	17
Age of Saurashtra miliolites by U-Th decay series methods : possible implications to their origin	<i>N Hussain, N Bhandari, K R Ramanathan and B L K Somayajulu</i>	23
A gradient method for interpreting magnetic anomalies due to horizontal circular cylinders, infinite dykes and vertical steps	<i>I V Radhakrishna Murthy, C Visweswara Rao and G Gopala Krishna</i>	31
Finite element modelling for evaluation of apparent resistivity over complex structures	<i>V K Gaur, G C Nayak and P K Gupta</i>	43
Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan	<i>D P Agrawal, P S Datta, Zahid Hussain, R V Krishnamurthy, V N Misra, S N Rajaguru and P K Thomas</i>	51
An application of complex demodulation technique to geomagnetic data and conductivity anomaly studies	<i>A K Agarwal, B P Singh and N Nityananda</i>	67
Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones	<i>B N Goswami, R N Keshavamurty and V Satyan</i>	79
Drift loss cone instability in the ring current and plasma sheet	<i>K G Bhatia and G S Lakhina</i>	99
Experimental evidence of gravity waves at 80-90 km altitude from OH night airglow observations	<i>Neeta H Majumdar and P V Kulkarni</i>	109

Redefinition of the international spheroid 1930	<i>V K Gaur</i>	115
Pillow structures in serpentinite, Tagadur, Nuggehalli schist belt, Karnataka	<i>K S Sudhakar</i>	117
Cosmic ray effects in the solar system objects	<i>N Bhandari and M N Rao</i>	121
Cosmogenic and bomb-produced $^7\text{Be}$ in stratospheric air	<i>Prem Sagar and P S Goel</i>	133
On the growth and decay of irregularities in the ionosphere	<i>Hari Om Vats and M R Deshpande</i>	137
Measurement of recharge rates in soils through detection of tritium produced in Chinese thermonuclear tests	<i>R N Athavale and C S Murti</i>	145
On the effect of the partial solar eclipse of 29 April 1976 on electron content	<i>G Sethia, H Chandra and M R Deshpande</i>	153
Numerical simulation of the Indian monsoon	<i>P K Das</i>	159
Some aspects of the large scale fluctuations of summer monsoon rainfall over India in relation to fluctuations in the planetary and regional scale circulation parameters	<i>D R Sikka</i>	179
Aircraft measurements of SST using IR radiometer and temperature corrections due to atmospheric effects	<i>H S S Sinha, S V Kasture, V Satyan, R M Pandya and P A Solanki</i>	197
Shift of quasi-stationary flow features during active and break monsoons	<i>R N Keshavamurthy, V Satyan, S K Dash and H S S Sinha</i>	209
Some thermodynamical and microphysical aspects of monsoon clouds	<i>A Mary Selvam, A S Ramachandra Murty, R Vijayakumar, S K Paul, G K Manohar, R S Reddy, B K Mukherjee and Bh. V Ramana Murthy</i>	215
Capability of Bhaskara SAMIR to distinguish atmospheric water vapour and liquid water contents	<i>P C Pandey, A K Sharma and B S Gohil</i>	231
Electrical resistivity anomalies over hydrocarbon bearing structures	<i>V K Gaur, Sri Niwas and N R Garg</i>	239

Study of microwave response of coal and sandstone samples	
<i>R Singh, Ramesh P Singh and K P Singh</i>	249
Magnetic studies on charnockites of Palni Hills	
<i>K Ramaswamy and N Ramamurthy</i>	261
The possible influence of curvature and rotation on ocean currents	
<i>R Narasimha</i>	267
<i>Erratum</i>	276
Monsoon cyclogenesis and large-scale flow patterns over South Asia	
<i>V Satyan, R N Keshavamurthy, B N Goswami, S K Dash and H S S Sinha</i>	277
An empirical method for the estimation of atmospheric water vapour content from SAMIR data	
<i>P C Pandey, B S Gohil and A K Sharma</i>	293
Holocene climate inferences from the sediments of the Western Indian continental shelf	
<i>R R Nair and N H Hashimi</i>	299
Remote sensing of the 'lost' Sarasvati River	
<i>Yash Pal, Baldev Sahai, R K Sood and D P Agrawal</i>	317
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region	
<i>B R Arora, D R K Rao and N S Sastri</i>	333
A semi-analytical non-self similar technique for shock waves from underground peaceful nuclear explosions	
<i>Satish C Gupta, S K Sikka and M P Ranga Rao</i>	347
Relative performance of augmented seismic network under random arrival-time errors	
<i>S K Arora, T K Basu and C A Krishnan</i>	359
Inversion of microearthquake arrival time data	
<i>Sri Niwas, V K Gaur and G C Katiyar</i>	369
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh	
<i>Mihir K Bose and Satrajit Nag</i>	383
Spodumene pegmatites from Hutti, Raichur District, Karnataka State	
<i>M S Sadashivaiah, T C Devaraju, K Gowd Reddy, B S Machigad, V P Lingannagoudar, S K Myageri and T M Kankudti</i>	403
Geoelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios	
<i>Sri Niwas, A K Awasthi and S Mantri</i>	413
Use of reflex discharge probes for evaluating the dynamics of neutral gas clouds	
<i>N Venkataramani and S K Mattoo</i>	431
<i>Erratum</i>	442

SUBJECT INDEX (Earth and Planetary Sciences)

- Absorbance  
A study of the serpentinisation in the Vempalle dolomitic limestones near Pulivendala, Cuddapah District 17
- Active and break monsoons  
Shift of quasi-stationary flow features during active and break monsoons 209
- Adiabatic liquid water content  
Some thermodynamical and microphysical aspects of monsoon clouds 215
- Air-borne radiometer  
Aircraft measurements of SST using IR-radiometer and temperature corrections due to atmospheric effects 197
- Airfilter analysis  
Cosmogenic and bomb-produced  $^7\text{Be}$  in stratospheric air 133
- Airglow photometry  
Experimental evidence of gravity waves at 80–90 km altitude from OH night airglow observations 109
- Albite  
Spodumene pegmatites from Hutti, Raichur District, Karnataka State 403
- Alkali complex  
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383
- Alkaline gneiss  
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383  
*a*-spodumene  
Spodumene pegmatites from Hutti, Raichur District, Karnataka State 403
- Anticline  
Finite element modelling for evaluation of apparent resistivity over complex structures 43
- Anticyclonic circulation  
Numerical simulation of the Indian monsoon 159
- Archaeological data  
Remote sensing of the 'lost' Sarasvati River 317
- Archaeology  
Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51
- Atmospheric effects  
Aircraft measurements of SST using IR-radiometer and temperature corrections due to atmospheric effects 197
- Augmented seismic network  
Relative performance of augmented seismic network under random arrival-time errors 359
- Autocorrelation  
Goelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios 413
- Baroclinic instability  
Monsoon cyclogenesis and large-scale flow patterns over South Asia 277  
Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones 79
- Barotropic  
Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones 79
- Barotropic instability  
Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Bhaskara* SAMIR  
Capability of *Bhaskara* SAMIR to distinguish atmospheric water vapour and liquid water contents 231
- Bomb activity  
Cosmogenic and bomb-produced  $^7\text{Be}$  in stratospheric air 133
- Brightness temperature  
Capability of *Bhaskara* SAMIR to distinguish atmospheric water vapour and liquid contents 231
- Broad band electrostatic noise  
Drift loss cone instability in the ring current and plasma sheet 99
- Carbonatite  
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383
- Carbon dating  
Age of Saurashtra miliolites by U–Th decay series methods: possible implications to their origin 23
- Charnockites  
Magnetic studies on charnockites of Palni Hills 261

- Chromium  
Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex 1
- Circular cylinder  
A gradient method for interpreting magnetic anomalies due to horizontal circular cylinders, infinite dykes and vertical steps 31
- Cloud droplet size distribution  
Some thermodynamical and microphysical aspects of monsoon clouds 215
- Cloud liquid water content  
Some thermodynamical and microphysical aspects of monsoon clouds 215
- Coercive force  
Magnetic studies on charnockites of Palni Hills 261
- Complex demodulation  
An application of complex demodulation technique to geomagnetic data and conductivity anomaly studies 67
- Computational design  
Numerical simulation of the Indian monsoon 159
- Conductivity anomalies  
An application of complex demodulation technique to geomagnetic data and conductivity anomaly studies 67
- Continental shelf  
Holocene climatic inferences from the sediments of the Western Indian continental shelf 299
- Cosmic rays  
Cosmic ray effects in the solar system objects 121
- Cosmogenic radioactivity  
Cosmogenic and bomb-produced  $^7\text{Be}$  in stratospheric air 133
- Cumulus heating  
Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Dating  
Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51
- Diagnostics  
Use of reflex discharge probes for evaluating the dynamics of neutral gas clouds 431
- Diaspore  
Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex 1
- Dielectric constant  
Study of microwave response of coal and sandstone samples 249
- Differentiation  
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383
- Dolomitic limestones  
A study of the serpentinisation in the Vempalle dolomitic limestones near Pulivendala, Cuddapah District 17
- Drift loss cone instability  
Drift loss cone instability in the ring current and plasma sheet 99
- Dunes  
Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51
- East-West shift of quasi-stationary features  
Shift of quasi-stationary flow features during active and break monsoons 209
- Effect of curvature and rotation  
The possible influence of curvature and rotation on ocean currents 267
- Electrical resistivity  
Electrical resistivity anomalies over hydrocarbon bearing structures 239
- Empirical regression analysis  
An empirical method for the estimation of atmospheric water vapour content from SAMIR data 293
- Environmental tritium  
Measurement of recharge rates in soils through detection of tritium produced in Chinese thermonuclear tests 145
- Equatorial electrojet axis  
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region 333
- Equatorial irregularities  
On the growth and decay of irregularities in the ionosphere 137
- Errata 276,442
- Finite element method  
Finite element modelling for evaluation of apparent resistivity over complex structures 43
- Finite elements  
Numerical simulation of the Indian monsoon 159
- Focal latitude  
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region 333
- Frictional effects  
Numerical simulation of the Indian monsoon 159
- Geochemistry  
Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex 1

- Geomagnetic deep sounding  
An application of complex demodulation technique to geomagnetic data and conductivity anomaly studies 67
- Geomagnetic tides  
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region 333
- Gradients  
A gradient method for interpreting magnetic anomalies due to horizontal circular cylinders, infinite dykes and vertical steps 31
- Gravel ridges  
Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51
- Gravity waves  
Experimental evidence of gravity waves at 80–90 km altitude from OH night airglow observations 109  
On the effect of the partial solar eclipse of 29 April 1976 on electron content 153
- Gulf stream meanders  
The possible influence of curvature and rotation on ocean currents 267
- Holocene  
Holocene climatic inferences from the sediments of the Western Indian continental shelf 299
- Hydrocarbon  
Electrical resistivity anomalies over hydrocarbon bearing structures 239
- Hypocentral location  
Inversion of microearthquake arrival time data 369
- Indian monsoon  
Numerical simulation of the Indian monsoon 159
- Infinite dyke  
A gradient method for interpreting magnetic anomalies due to horizontal circular cylinders, infinite dykes and vertical steps 31
- International spheroid  
Redefinition of the international spheroid 1930 115
- Inversion  
Inversion of microearthquake arrival time data 369
- Laboratory measurement  
Study of microwave response of coal and sandstone samples 249
- Landsat imagery  
Remote sensing of the 'lost' Sarasvati River 317
- Lapse rate of temperature  
Some thermodynamical and microphysical aspects of monsoon clouds 215
- Large-scale flows  
Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Laterite  
Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex 1
- Latitudinal variations  
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region 333
- Liquid water  
Capability of *Bhaskara* SAMIR to distinguish atmospheric water vapour and liquid water contents 231
- Lithium  
Spodumene pegmatites from Hutti, Raichur District, Karnataka State 403
- Loss tangent  
Study of microwave response of coal and sandstone samples 249
- Lunar daily variation  
Latitudinal variations of geomagnetic solar and lunar tides in the Indian region 333
- Lunar samples  
Cosmic ray effects in the solar system objects 121
- Magnetic anomalies  
A gradient method for interpreting magnetic anomalies due to horizontal circular cylinders, infinite dykes and vertical steps 31
- Magnetosphere  
Drift loss cone instability in the ring current and plasma sheet 99
- Mean mass susceptibility  
Magnetic studies on charnockites of Palni Hills 261
- Mean zonal flows  
Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones 79
- Mesospheric temperature  
Experimental evidence of gravity waves at 80–90 km altitude from OH night airglow observations 109
- Meteorites  
Cosmic ray effects in the solar system objects 121
- Microearthquake  
Inversion of microearthquake arrival time data 369
- Microwave radiometer  
Capability of *Bhaskara* SAMIR to distinguish atmospheric water vapour and liquid water contents 231

- Microwave response  
 Study of microwave response of coal and sandstone samples 249
- Mid-tropospheric cyclones  
 Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones 79
- Miliolites  
 Age of Saurashtra miliolites by U-Th decay series methods: possible implications to their origin 23
- Monsoon clouds  
 Some thermodynamical and microphysical aspects of monsoon clouds 215
- Monsoon cyclogenesis  
 Shift of quasi-stationary flow features during active and break monsoons 209  
 Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Monsoon depression  
 Numerical simulation of the Indian monsoon 159  
 Role of barotropic, baroclinic and combined barotropic-baroclinic instability for the growth of monsoon depressions and mid-tropospheric cyclones 79
- Monsoon models  
 Numerical simulation of the Indian monsoon 159
- Monsoon rainfall  
 Some aspects of the large scale fluctuations of summer monsoon rainfall over India in relation to fluctuations in the planetary and regional scale circulation parameters 179
- Monsoon variability  
 Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Monte-Carlo simulation  
 Geoelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios 413
- Nepheline syenite  
 Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383
- Neutral gas cloud  
 Use of reflex discharge probes for evaluating the dynamics of neutral gas clouds 431
- Non-self similar technique  
 A semi-analytical non-self similar technique for shock waves from underground peaceful nuclear explosions 347
- Numerical simulation  
 Numerical simulation of the Indian monsoon 159
- Ocean currents  
 The possible influence of curvature and rotation on ocean currents 267
- OH airglow  
 Experimental evidence of gravity waves at 80-90 km altitude from OH night airglow observations 109
- Palaeochannels  
 Remote sensing of the 'lost' Sarasvati River 317
- Palaeoclimate  
 Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51  
 Holocene climatic inferences from the sediments of the Western Indian continental shelf 299
- Pegmatites  
 Spodumene pegmatites from Hutti, Raichur District, Karnataka State 403
- Pillow structures  
 Pillow structures in serpentinite, Tagadur, Nugehalli schist belt, Karnataka 117
- Planetary monsoon wave  
 Monsoon cyclogenesis and large-scale flow patterns over South Asia 277
- Plasma sheet  
 Drift loss cone instability in the ring current and plasma sheet 99
- Power spectrum geoelectrical response  
 Geoelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios 413
- Precipitable water vapour  
 Aircraft measurements of SST using IR-radiometer and temperature corrections due to atmospheric effects 197
- Pyrophyllite  
 Some aspects of geochemistry of pyrophyllite and diaspore deposits of Bundelkhand complex 1
- Quaternary formations  
 Palaeoclimate, stratigraphy and prehistory in north and west Rajasthan 51
- Radiosonde data  
 An empirical method for the estimation of atmospheric water vapour content from SAMIR data 293
- Rainfall  
 Numerical simulation of the Indian monsoon 159
- Random arrival-time errors  
 Relative performance of augmented seismic network under random arrival-time errors 359

- Recharge  
Measurement of recharge rates in soils through detection of tritium produced in Chinese thermonuclear tests 145
- Reflex discharge probes  
Use of reflex discharge probes for evaluating the dynamics of neutral gas clouds 431
- Regional atmospheric circulation  
Some aspects of the large scale fluctuations of summer monsoon rainfall over India in relation to fluctuations in the planetary and regional scale circulation parameters 179
- Relative remanence  
Magnetic studies on charnockites of Palni Hills 261
- Resistivity sounding  
Finite element modelling for evaluation of apparent resistivity over complex structures 43
- Resistivity transform  
Geoelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios 413
- Ring complex  
Petrology of the alkaline suite of Elchuru, Prakasam District, Andhra Pradesh 383
- Ring current  
Drift loss cone instability in the ring current and plasma sheet 99
- Sandstone-shale ratio  
Geoelectrical response of a water bearing sandstone-shale sequence and the estimation of sandstone-shale ratios 413
- Sarasvati River  
Remote sensing of the 'lost' Sarasvati River 317
- Satellite microwave radiometer  
An empirical method for the estimation of atmospheric water vapour content from SAMIR data 293
- Saurashtra coast  
Age of Saurashtra miliolites by U-Th decay series methods: possible implications to their origin 23
- Scintillation
